

Every other progressive state in this country recognizes rabbits as beautiful sentient beings and pets, not food. How is our own great state of CT even considering such a barbaric bill.

We, BARC CT has a HUGE Connecticut social media presence and we intend to use our platform to speak openly about the outcome of this bill proposal. Please do the RIGHT things and kill the bill. VOTE NO ON HB5263

Thank you,

Bridgeport Animal Rescue Crew of Connecticut (and our more than 20,000 supporters and animal advocates)
